Subject: RE: Questions from meeting

All,

This is the first of, I'm afraid, many emails from the team that got lost in the shuffle while I was in Durango. Even though they are stale, I'm going to run them by you to see if there is any action by me that needs to be taken on them, now. So, is there any follow up on this one?

I apologize for my lack of responsiveness over the past several weeks. My fingers are cross that I can be a little more nimble in the future.

Cynthia

Subject: FW: Questions from meeting

Hi Cynthia,

Here is an email I received today. (it was in my junk email by the way.) I called Anna back and let her know we are still in negotiations therefore we haven't started interviewing folks or working with past employees yet, but once we have an AOC in place that will all be part of the process. We discussed community involvement and how that will move forward as well. I discussed options for CAG/TAG groups (briefly). She is going to put together a note for the "round table" and asked that I look at it tomorrow. I also let her know you were talking with Mary Green soon as well. If you have time I would like it if you could add to the message she is sending out if we are missing anything? I'll share her document when I get it.

Thanks
Mike

Subject: Questions from meeting

Hello Mr Cirian,

Yesterday Senator Daines invited a few community leaders to a round table to discuss the CFAC cleanup and EPA oversight of the Glencore property.

One question that came up was whether or not either the EPA or CFAC are working with past employees to identify areas of potential contamination.

When you have time, would you please call me at 406-871-9393?

I'd like to talk to you about it in person and then disseminate the information so everyone is on the same page.

I won't take too much of your time.

Sincerely,

Anna
